The After-Hours Cart is a trial program, sponsored by the SCAA intended to address the needs of non-ambulatory Saltaire residents traveling between home and the Yacht Club. Hopefully the program will prove successful and be continued next season.

Spouses or caretakers should use a bicycle or walk, using the cart only if necessary.

The cart will travel to and from the Yacht Club along a fixed route (the red line on the map) at the above times picking up passengers at any point along the route. Allow sufficient time to position yourself anywhere along the route. The cart should complete the route in about 20 to 30 minutes and will travel the same route homebound. If you are late and should miss the cart, do not call, the cart cannot return to pick you up.

If the cart is full when it passes, wave it down and it will return to pick you up.

**Check the Saltaire Village web site regularly. Times may change weekly depending on Yacht Club events and days may be eliminated depending on driver availability.**
