Influenza (flu) is a contagious respiratory illness that can cause mild to severe illness. Some people, such as older people, young children and those with certain health conditions, are at high risk for serious flu complications. The best way to protect against the flu is by getting vaccinated each year; this year being especially important during the COVID-19 pandemic.

Northwell Health Labs

COVID-19 PCR Testing - LabGold™

Instructions for Fire Island Flu Pods Event

Free testing event

Simple COVID-19 PCR testing is now available with Northwell Health Labs!

The process is easy:

- Register for testing by opening the camera app on your mobile device and scanning this QR code:

- Or use this link:
https://healthcloudtrialmaster-15a4d-178239e08cb.force.com/PatientRegistration/s/?client_id=a1D5Y000006CakCUAS
- Pick up a swab in tube from the testing station
- Follow the instructions on your mobile device to self-swab your nose
- Use your mobile device to scan the barcode, which will link your sample to your registration
- Place your tube in the rack at your testing station
- Your results will be available to you by the end of the day 9/20.
